

Part 405 – Personal Property

Subpart C – Equipment Management

CO405.23 (r)(2)

§CO405.23 Vehicle Management

(q) Operators of All-Terrain Vehicles (ATVs)

All operators of all terrain vehicles must:

(1) Participate in a training course recognized by the ATV Safety Institute, a division of the Specialty Vehicle Institute of America (SVIA). The course is mandatory for new operators and must be taken before using the vehicle.

(2) Wear a proper-fitting helmet which bears either the Department of Transportation Label, the American National Standards Institute Label (ANSI Z90.1), or the Snell Memorial Foundation Label. This is to reduce the possibility of head injuries. This helmet may be either full or open-faced. NRCS will provide helmets.

(3) Wear goggles or a full-faced shield for eye protection, which must bear the standard markings DOT VESC-8 or ANSI Z87.1-1989 or be constructed of a hard-coated polycarbonate. NRCS will provide eye-protective wear.

(4) Wear substantial shoes of material such as leather which covers at least the ankle and have heels to reduce the possibility of injury to feet and ankles. Cloth or canvas shoes are not acceptable. NRCS operators will provide their own shoes.

(5) Wear long pants for total leg support. NRCS operator will provide long pants since they can reasonably be expected to be a part of everyday attire.

(r) NRCS recommends the operator wear the following equipment for his/her personal protection, which the NRCS operator should provide:

(1) Off-road style gloves for personal protection, particularly when operating in brushy, forested, or rocky terrain.

(2) Long-sleeved shirt or long-sleeved jacket.
